Our Curriculum - Mathematics

Developing a strong grounding in number is essential so that all children develop the necessary building blocks to excel mathematically. Our educational programme includes rich opportunities for children to develop their spatial reasoning skills across all areas of mathematics including shape, space and measures.

We explore 2D and 3D shapes through construction and loose parts play. We look for and create patterns, spot connections and talk about our experiences using mathematical language.

Easter

In the Baby Unit we explored Easter themed sensory objects together.

St. George's Day

We learnt about St. George and designed and created our own 'shields'.

Happy Birthday to children celebrating in May!
