

Family Support

We hope you are all staying safe and well, and we miss you all very much!

We are still here to support you as much as possible, so please do [email the nursery](#) if you require any help or advice and we will be in touch.

Our named Designated Safeguarding Leads are Nerys Evans and Julie Alsop; Nerys is still available to contact if you have any queries or concerns regarding safeguarding and child protection issues. There are also lots of useful links on our [website](#) if you require further advice or guidance.

Warwickshire's Family Information Service is also available to help families, parents and carers with advice and one-to-one support on issues including family relationships, housing, parenting support, health and wellbeing and much more. Please [click here](#) for information on how to contact the Family Information Service.

Family Partnership

It is fantastic to see so many families keeping in touch on our private group on Facebook – '[Blue Bell Woods Families](#)' – we love seeing the children and the exciting experiences you are sharing at home.

To join the group, simply click [here](#). You will then be prompted to provide your child's name and to agree to the group rules. You will only be added to the group once you have confirmed this information.

Please feel free to post any photographs of your children that you are happy for other families to show to their children, or share any ideas about how to have fun at home.

We hope to see more of you soon!

Supporting learning at home- meal times

Mealtimes present the perfect opportunity to connect with your child and enjoy each others' company.

Your child may be excited to help in the kitchen; being involved in food preparation can spark an interest in healthy foods and foster a willingness to taste new things. Encourage your child to help lay the table, serve their own food, pour their own drinks and feed themselves, within their capabilities. This promotes independence and gives your child a sense of achievement.

You can use meal times to model good manners, promote sensory development and encourage language skills and conversation. Aim to turn off all screens and other devices and connect with each other as a family.

Happy Birthday to children celebrating in May!
