This month the children have been extremely engrossed in a variety of Autumn craft activities and sensory experiences. We have been learning lots of new vocabulary whilst we engage in new experiences.

*"When life throws you a rainy day, play in the puddles." ~ Winnie the Pooh.*

Splashing in puddles and being out in the rain is a great way to learn about our world!

The benefits of reading stories with children are endless!

- Reading helps to develop a young child's brain
- Learning new words and building a wider range of vocabulary
- Enhancing listening, attention and understanding.
- Developing a special bond and growth in confidence and self- esteem.
- It sparks their imagination
- Supports understanding of routines.

Reading one story a day with your child is a great way to support their learning and development, especially communication and language.

Don't forget to use our lending library at nursery for some different and exciting books to keep your children engaged!
