# Teachable Moments...

## Our Education Programme

We offer a rich curriculum that promotes the EYFS areas of learning and development, supports children's cultural capital and captures interests in the present moment.

## Our approach

We offer an engaging environment with materials that will excite and intrigue the children, allowing learning to take place through child-initiated play. This is a fun and relaxed way for children to learn and make progress. We find that by using this approach, children and practitioners are more enthusiastic, engaged, relaxed and form strong relationships. Our practitioners carefully observe children and opportunities to seize the moment of children's interests. These are called 'teachable moments'.

# Police Visit!

We had a special visit from our local police officers who spent some time teaching the children all about what the police do, the equipment they use and how to contact the police.

The children had the chance to try out some uniform and even put some handcuffs on the staff!

We spent lots of time exploring the van; the children were able to turn on the lights and sound the siren which was very exciting!

We spoke about safety and how to stay safe in public.

Following this, the children have enjoyed extending their learning by talking about the visit at circle time, engaging in police role play, colouring in police pictures and obtaining their very own fingerprints!

# Graduation 2025!

Congratulations to all the children graduating from Blue Bell Woods this year. We wish you all the best for your next big adventure!
